

On December 1, 2016, EHT's Academy of Law and Business (ALAB) students attended a college tour of Stockton University. Students were greeted and given an overview by the Assistant Director of Admissions and then given a guided tour by Stockton student ambassadors, where they explored academic buildings, dormitories, and common areas. The business students were given the opportunity to ask questions regarding student loans, academic expectations, and job placement opportunities upon graduation. The ALAB program offers students a unique and specialized program that prepares them for 21st century College and careers and culminates in a real world job shadow/internship experience with local companies.
