Egg Harbor Township High School was well represented (21 participants) at StockHack 2017, Stockton University's first ever 24 hour hackathon. The event was attended by 50 plus college and high school students. StockHack provided students the opportunity to use their computer science knowledge to design and develop an innovative product. EHTHS students placed first in two of the three categories.

Winning Team for the Design Challenge –
Akash Patel, Sarah Phung, and JT Kurtz
(Designed a travel booking mobile app)

Winner of the Software Challenge -
Eddie Tran

The winners of the third category ("Innovation") was a group in which 2 out of the 3 students were EHTHS computer science alumni.

Below are two news links about the event.
